Candle care & safety

READ BEFORE LIGHTING - KEEP FOR REFERENCE

A candle changes the feeling of a room. Use it slowly, safely and only for its intended purpose. Always follow the product-specific label as well as this guide.

BEFORE YOU LIGHT

1. Remove all outer packaging, ribbons, tags, dust covers and loose decorative material.
2. Place the candle upright on a stable, heat-resistant candle plate. Protect furniture from heat and wax.
3. Trim every wick to approximately 5 mm before lighting. Remove wick trimmings from the wax.
4. Keep clear of curtains, shelves, decorations, draughts and other flammable materials. Leave at least 10 cm between burning candles.

WHILE IT BURNS

1. Never leave a burning candle unattended - even briefly.
2. Keep away from children and pets. Do not place where it can be knocked over.
3. Burn for no more than four hours at a time unless the product label gives a shorter limit.
4. Do not move, touch or handle the candle while lit or while the wax is hot.
5. If the flame becomes unusually high, flickers repeatedly or smokes, extinguish it, allow it to cool, then trim the wick before relighting.

SCENT - MEMORY - FEELING

EXTINGUISH SAFELY

1. Use a candle snuffer where possible. Never extinguish a candle with water.
2. Check that the wick has stopped glowing before leaving the room.
3. Let the candle and wax cool completely before moving, covering or storing it.
4. Stop using the candle when approximately 10 mm of wax remains, or sooner if the product label instructs you to.

DESSERT-INSPIRED SCENTED CANDLE

NOT FOOD - DO NOT EAT

For candle use only. Keep away from children and pets.

Never leave a burning candle unattended. Keep away from flammable materials. Follow the supplied candle burning instructions.

Do not taste, lick or place any part in the mouth. If swallowed, seek medical advice promptly and retain the packaging.

PRODUCT-SPECIFIC INFORMATION

Fragrance, allergen, batch and any product-specific safety information appear on the candle or its packaging. Keep that label. This guide supports, but does not replace, those instructions.
